Frameless Glass Whiteboard

The White Frameless Glass Whiteboard is a contemporary alternative to traditional whiteboards due to the durability and elegance of premium glass. Will not ghost or stain due to the high quality toughened safety glass. The non porous surface can be used with standard whiteboard markers. This board comes as Frameless to create clean lines and a modern appearance because of the glass edge.

FEATURES

- Polished Edge With Rounded Corners
- Magnetic Surface
- Pen Tray Included
- White Fixtures
- Lifetime Surface Warranty
- Toughened 4mm Safety Glass
- Stainless Steel Fixtures Float the Board 20mm off the Wall

*Only for use with heavy duty super strong magnets due to the thickness of the glass.

DIMENSIONS

900 x 600 | 1200 x 900 | 1500 x 900 | 1500 x 1200 | 1800 x 900 | 1800 x 1200 | 2100 x 1200 | 2400 x 1200

Frameless Glass Whiteboard

Frameless Glass Whiteboards – Warranty & Care

Frameless Glass Whiteboards offer a lifetime surface erasing warranty.

Cleaning the Surface

The writing surface is stain resistant, so all whiteboard markers can be used. Cleaning these markers requires a normal whiteboard eraser or cloth. If marks become a little harder to remove, usually because they have been left on the surface for a few days or more, then whiteboard cleaning fluids can be used to good effect. Cleaning fluids will not harm the writing surface in any way. Commercial cleaning (non-abrasive) products contain ammonia and tend to leave a residual film on the whiteboard surface as ammonia does not evaporate (unlike alcohol). This residual film if a problem, is best removed with warm slightly soapy water. Remove the soapy water with warm water then buff dry.

Care of Porcelain Whiteboards

Professional installation and handling of the board is always recommended. During installation care must be taken to not over tighten the installation fittings. For boards over 25kgs we recommend for OH&S that 2 persons lift and position the board.

What is Not Covered by This Warranty

The warranty does not apply to: damage caused by accident, abuse or misuse, that may arise from installation... such as scratches on the surface which may have been caused during handling and installation. Items such as screwdrivers, screws or rings can damage the surface. Under normal operating conditions you would expect the surface to remain scratch and stain free. Occasionally 'ghosting' of written text may appear on the surface. This is normal and is not a sign of product failure. It can be removed by a clean eraser or cleaning fluid. The supplier nor any affiliate subcontractor, shall not be liable for any special, incidental or consequential damages or economic loss caused by the use, misuse or inability to use the product.

Making a Warranty Claim and Returning a Product

In making a warranty claim we will submit to you a form to fill in so that we may ascertain the best method of resolution. In proceeding with your warranty claim ... you or your supplier must obtain a RAN (Return Authorisation Number) from our office. This RAN must be attached to the goods when they are returned to your supplier. The RAN must also specifically mention the purchase date, so please keep a copy of your invoice from the place where you purchased the product from. This is your warranty validation record. New boards supplied under this RAN will be delivered to the reseller where you purchased the product. It is your responsibility to organize delivery from this point.
