

Slimline Frame Porcelain Whiteboard

When quality and style count, our Slimline Frame Porcelain Whiteboard is the industry leading standard. The slim aluminium frame and lack of visible fixings creates a sharp appearance that befits the modern office. Only 4mm of frame is visible front-on and it comes standard in clear anodised silver, with black or white powdercoating available as an optional extra.

The durable porcelain board surface offers superior wear and a smooth, stain-resistant writing experience. The slimline frame allows the creation of communication walls with unlimited boards butt-joined side by side.
